What's going on!

Labs take place outdoors every Friday after PT. This fall semester Cadets split by class levels. The junior cadets (MS3), learn and practice squad level movements and tactics. The freshmen (MS1) and sophomore (MS2) cadets were taught the basics of drill individual movement techniques and basic map reading for land navigation. The senior cadets (MS4) teach and explain the importance of these skills as they will be using them in the future through squad and platoon size leadership.

In addition to training and classes, Houston Battalion Cadets host tailgates at our home Football Games. We welcome the students and alumni to stop by our booth and learn about the program. We have free hot dogs, prizes, and love doing push-ups with everyone. Houston Battalion enjoys engaging with the community.

PMS CORNER

MAJ Jimmy Ta

This year, Major Ta became the new Professor of Military Science. Born and raised in Houston, TX, he graduated and commissioned at the University of Houston in 2004. Coming back as an alumnus, Major Ta provides powerful insight into the program. "Pride & Grit" are the words he started with when meeting Cadets. He shared with us his journey as a son of immigrant & refugee parents, and how it's important to take pride where we come from.

"Be yourself, do what's right, make a difference, and have fun!"
