

**SWEAT EQUITY  
PARTNERS, LP**

**AN ENTREPRENEUR-LED FAMILY OF COMPANIES**

**Andrew White**  
President

Andrew White established Sweat Equity Partners in 2010 to start new businesses and to acquire lower middle market businesses. In his career, he led the creation of Allied Warranty, Lone Star Repair, Geovox Security, HomeTool.com, and Path Environmental Technology.

In 2020, SEPLP successfully sold a majority stake in Path Environmental Technology to Ara Partners. In 2012, Andrew led the sale of Allied and Lone Star to NRG Energy. At the time of the sale, Allied had approximately 250,000 customers, and Lone Star had approximately 75 service technicians responding to 20,000+ service calls per year.

Prior to founding Allied he was involved with businesses in fire/water restoration, industrial services, physical security, and several start-up internet concepts.

Outside of his business efforts, Andrew ran for the Democratic nomination for Governor of Texas, earning a position in the May 2018 run-off election. Although he was ultimately unsuccessful, he believes it's your turn next...

Andrew graduated from Houston's Lamar High School in 1991. He holds a Bachelor's of Arts degree in Religious Studies from the University of Virginia (1994) and a Masters in Business Administration degree from the University of Texas (2003). Andrew serves on the UTHealth Development Board and the Hobby School of Public Affairs Development Board.

He married Stacey White in 2000, and they have three children. He enjoys reading, biking, fly fishing and wine - although never at the same time.
