

Quiz 19

1. The reaction below presently falls in the "Hey! I have never seen this before! No Fair!" category. Using what you DO know about electrophiles and nucleophiles and other important species, please provide a mechanism that explains the formation of each product. Remember to use curved arrows to properly indicate electron flow and to show all formal charges.

2. From the Fall 2001 Exam: From cyclohexane and any inorganic reagents, synthesize the compound below.
