

**USS 1101: College Success is a one-hour, graded course that is only offered to Exploratory Studies students!**

The curriculum provides first-year students with opportunities to develop skills, behaviors and attitudes seen in successful scholars, including learning and study strategies, communication, time-management, and career and major exploration, as well as connection to UH campus culture and resources. Course sections are small, staffed by instructors from academic and support offices across campus, and are assisted/mentored by an undergraduate Peer Mentor.

USS 1101 offers face-to-face (F2F) and live video online course sections. Course delivery options are listed as **F2F** or **Online Synchronous** in the Delivery column on the list below. The curriculum is the same in all sections. Weekly classes are 50 minutes long. Customize your first year experience! We offer USS 1101 sections focused around intended major and other specialty interests and categories so you can find other students with similar interests right from your first semester. The overall content and learning objectives will be the same across all sections, but instructors with relevant experience and/or interests in the respective area will be able to provide additional guidance and use interest-focused examples for students with these interests. All instructors are prepared to teach students who are undecided about their major. Note\*: Enrollment in special interest areas do not indicate acceptance into a specific program or major.

**USS 1101 Interest Sections**

The groups listed below represent interest in a specific major (college) at the university.

- Architecture – Gerald D. Hines College of Architecture and Design
- Arts – Katherine G. McGovern College of the Arts
